CLAIM NO. 7005 1820 0001 2684 1621

COMPLAINT NO. R4-2010-0158-M FOR MANDATORY MINIMUM PENALTY AGAINST MORGAN ADAMS, INC, ADAMS PLAZA, 1545 WILSHIRE BLVD, LOS ANGELES, CA 90017 (ORDER NO. 97-101, NPDES PERMIT NO. CA0058297, CI-6302)

Dear Mr. Whitehead:

Thank you for the letter from your representative Ms. Nancy Marcus, Esquire, dated September 30, 2010, responding to the Offer to Participate in Expedited Payment Program No. R4-2010-0158-M, which assessed Mandatory Minimum Penalties (MMPs) for late reporting violations.

Subsequent to issuance of Settlement Offer No. R4-2010-0158-M, there have been changes to the California Water Code with respect to assessment of MMPs for late reporting violations. Specifically, the Governor signed Senate Bill (SB) 1284 on September 30, 2010, which in part amends California Water code section 13385.1 to add subdivision (b). Though the provisions of SB 1284 are not effective until January 1, 2011, Regional Board enforcement staff are taking the new provisions into consideration with respect to Settlement Offer No. R4-2010-0158-M.

In summary, SB 1284 provides that "on a one-time basis only, that where a discharger has not previously received notification from the state or regional board of an enforcement action imposing mandatory minimum penalties and where the current violation consists of failure to file discharge monitoring reports for reporting periods where dischargers did not violate numeric effluent limitations, that discharger will be subject to total fines of \$3,000 per required report. After this one-time fine, a discharger, who subsequently fails to file such a report will be fined in accordance to current law. The bill states that regardless of whether the failure to file such reports is subject to the one-time relief provided, the failure to file the required report(s) may be subject to discretionary penalties." [Sen. Rules Com., Off. of Sen. Floor Analyses, Unfinished Business analysis of Sen. Bill No. 1284 (2009-2010 Reg. Sess.) as amended August 20, 2010, p.4, para. 3.]

In light of these new amendments, Regional Board enforcement staff have reevaluated the violations addressed in Settlement Offer No. R4-2010-0158-M and have determined that the Permittee has met the conditions for a one-time relief from cumulative MMPs which accrue each complete period of 30-days a report is late with respect to the following late reports: 4th Quarter 2003 and 1st Quarter 2004. Therefore, in accordance with the new provision of the California Water Code, section 13385.1(b)(1), a single MMP of \$3,000 is now assessed for each of the above-mentioned reports listed in Exhibit "A" - Notice of Violation. However, be advised that future eligible late reports will be assessed MMPs for each complete period of 30 days following the deadline for submitting the report pursuant to California Water Code section 13385.1(a).

**STATE OF CALIFORNIA
REGIONAL WATER QUALITY CONTROL BOARD
LOS ANGELES REGION**

In the matter of:)	Complaint No. R4-2010-0158-M
)	Mandatory Minimum Penalty for
)	Violation of California Water Code § 13376
Morgan Adams, Inc.)	and
Adams Plaza (Presently known as Jamison 1545 Wilshire, LLC))	Order No. 97-101
Los Angeles, CA 90017)	(NPDES No. CA0058297)

This Complaint to assess the mandatory minimum penalty pursuant to California Water Code (CWC) § 13385.1 is issued to Morgan Adams, Inc. (hereinafter Permittee) based on a finding of violations of waste discharge requirements prescribed in Order No. 97-101 (National Pollutant Discharge Elimination System (NPDES) No. CA0058297, CI No. 6302).

The Executive Officer of the Regional Water Quality Control Board, Los Angeles Region (Regional Board) finds the following:

1. The Permittee formerly operated the Adams Plaza (presently known as Jamison 1545 Wilshire, LLC) located at 1545 Wilshire Boulevard in the City and County of Los Angeles, California. The Permittee discharged up to 7,000 gallons per day (GPD) of groundwater seepage and cooling tower blowdown into a local storm drain located on the site at Union Avenue and Wilshire Boulevard. The wastewater then flowed from the storm drain into Ballona Creek, a navigable water of the United States. The wastewater was susceptible of consisting total suspended solids (TSS) and other pollutants which can degrade water quality and impact beneficial uses of water, and which are defined as wastes under the Porter-Cologne Water Quality Control Act (CWC § 13000 et seq.).
2. On July 21, 1997, the Permittee was enrolled under Order No. 97-101 which was adopted by the Regional Board on July 21, 1997.
3. Any discharge containing pollutants violating the effluent limitations set in the waste discharge requirements is prohibited by CWC § 13376.
4. Among the provisions in the Permittee's waste discharge requirements are the requirements to implement a discharge monitoring program and to prepare and submit monthly NPDES self-monitoring reports to the Regional Board pursuant to the authority of CWC § 13383.
5. On September 15, 2010, the Executive Officer of the Regional Board issued the Permittee Settlement Offer No. R4-2010-0158-M to participate in the Expedited Payment

December 17, 2010.

Program (Settlement Offer). The Settlement Offer included a Notice of Violation notifying the Permittee of eleven (11) late reports that were due on January 15, 2004 and April 15, 2004. All eleven (11) late reporting violations were subject to mandatory minimum penalties (MMP) assessing \$33,000.

6. Since issuance of Settlement Offer No. R4-2010-0158-M, there have been changes to California Water Code section 13385.1(b) with the passage of Senate Bill 1284. To comply with the new law, the Regional Board enforcement staff has adjusted the number of violations to two (2) and the penalty to \$6,000.
7. Two (2) late self-monitoring reports in violation of Order No. 97-101 were submitted on August 13, 2004. Both violations are subject to MMPs. The violations are identified in Exhibit "A" attached hereto and incorporated herein by reference.
8. CWC § 13385.1(a)(1) requires the Regional Board to assess a mandatory minimum penalty of three thousand dollars (\$3,000) for a "serious violation" defined by that section as "a failure to file a discharge monitoring report required pursuant to Section 13383 for each complete period of 30 days following the deadline for submitting the report, if the report is designed to ensure compliance limitations contained in waste discharge requirements that contain effluent limitations. This section applies to violations occurring on or after January 2004.
9. The maximum amount of administrative civil liability assessable pursuant to CWC § 13385(c) is \$10,000 per day of violation plus \$10 times the number of gallons by which the volume discharged but not cleaned up exceeds 1,000 gallons.

YOU ARE HEREBY GIVEN NOTICE THAT:

10. The Executive Officer proposes that the Permittee be assessed a mandatory minimum penalty in the amount of \$6,000 for the violations which occurred during the January 2004 through April 2004 monitoring periods cited in Exhibit "A". This complaint addresses administrative civil liability for violations that specifically identified in Exhibit "A" as subject to a mandatory minimum penalty. Refer to Exhibit "A" for the calculation of the amount of mandatory minimum penalty.
11. The Permittee may waive the right to a hearing and pay the recommended civil liability. Should the Permittee choose to waive its right to a hearing, an authorized agent must sign the waiver form attached to this Complaint and return it to the Regional Board by 5:00 pm on **January 18, 2011**. If the hearing is waived, a check in the amount of \$6,000 (payable to the State Water Pollution Cleanup and Abatement Account) must be received by the Regional Board by 5:00 pm on **January 18, 2011**.
12. If the Regional Board does not receive a waiver and full payment of the recommended penalty by **January 18, 2011**, the Complaint will be heard before the Regional Board or Regional Board Hearing Panel pursuant to California Water Code §§ 13228.14 and

13323. The Notice of Public Hearing contains that date, time, location, and specific procedures of the scheduled hearing of this matter.
13. If a hearing on this matter is held, the Regional Water Board will consider whether to affirm, reject, or modify (i.e. increase the proposed civil liability above the mandatory minimum) the proposed civil liability, or whether to refer the matter to the Attorney General for assessment of judicial civil liability.
 14. There are no statutes of limitations that apply to administrative proceedings. The statutes of limitations that refer to "actions" and "special proceedings" and are contained in the California Code of Civil Procedure apply to judicial proceedings, not administrative proceeding. See *City of Oakland v. Public Employees' Retirement System* (2002) 95 Cal. App. 4th 29, 48; 3 Witkin, Cal. Procedure (4th ed. 1996) Actions, §405(2), p. 510.)
 15. Notwithstanding the issuance of this Complaint, the Regional Board shall retain the authority to assess additional penalties for violations of the requirements of the Permittee's waste discharge requirements for which penalties have not yet been assessed or for violations that may subsequently occur.
 16. This enforcement action is exempt from the provisions of the California Environmental Quality Act, California Public Resources Code § 21000 et seq., in accordance with California Code of Regulations, title 14, § 15321.
 17. Regulations of the United States Environmental Protection Agency require public notification of any proposed settlement of the civil liability occasioned by violation of the Clean Water Act including NPDES permit violations. Accordingly, interested persons will be given 30 days to comment on any proposed settlement of this Complaint.
